

DIVERSIFIED FIXED INCOME POOL

As of 3/31/2019

INVESTMENT PHILOSOPHY

The investment objective of the Diversified Fixed Income Pool is to generate regular income and maximize total returns by investing in debt-like securities from governments and corporations from around the world. We will be able to enhance portfolio yield and reduce risk by investing in a broader mix of fixed income assets than is normally found amongst traditional fixed income products. Convertible debentures, non-investment grade corporate debt, emerging market bonds and preferred shares are fixed income categories that we will utilize within the overall asset mix of the fund.
